This week's Fatstock sale at Bryncir saw trade firm up across all sections. Majority of the lambs forward being hill-cross lambs with fewer continental and continental-cross lambs around. Demand remained particularly strong for light and standard-weight lambs, resulting in improved prices.

Cull ewes and rams met a flying trade, with well-fleshed ewes regularly exceeding £200 and a top price of £240.

In the cattle and cull cow selection, the consistent trade of recent weeks continued, with keen competition throughout reflected in the strong prices achieved.
